

SOLID-120-OR

LED lightbar **SOLID LED lightbar | 120 cm | amber | 12/24V + control box**

The undisputed number one in our range. Our LEG light bars have proven their superiority many years ago. Thanks to the large number of sales, a number of standard versions have been created which we can ship on the day of the order. In addition, the unique concept of our LED light bar allows almost any desired configuration. We will then build your LEG light bar from scratch, so that we can take into account the most diverse wishes. Once assembled, your LEG light bar is subjected to a full test protocol so that we can be sure that you will be 100% satisfied. A compact and modern control unit is included as standard, enabling to operate the basic functions in a clear and concise manner. For more extensive control systems, we have a whole range of products to consider and our specialists are at your service for this. The internal electronics also allow it to be controlled by third party controls. LEG light bars are dust² and waterproof, weatherproof, vibration² and shockproof, ... in short, extremely suitable for the most demanding environment. If you have any questions during or after the installation, you can always call on one of our technical staff.

With control box (TRAFLEDCONTR.REV1)

Specifications
