

# SOLID-180-CLOR

LED lightbar **SOLID LED lightbar | 180 cm | amber | 12/24V**

This Full LED light bar offers you everything you need to work safely and be seen. The extremely attractive price will surprise you.

You are on call 24/7 for breakdown services, and when you do have to go out, you do so in a professionally responsible way that puts your image as a professional in the spotlight.

You find yourself in the most possible and impossible situations, which is why the Budget bar has 2 very powerful 360° LED tornado beacons. These are unmistakable and ensure that you are always well seen. So you can do your job in a secure environment.

The middle section is white and backlit with LED. The text 'Depannage', on the front and back, is therefore always clearly visible.

*Tip: You can also replace this with your own company name, for example, and advertise in this way! Handy, isn't it?*

This Full LED lightbar is delivered "Ready to roll in no time", so just connect it and go!
